(54) Title: DISPENSER DEVICE

(57) Abstract: The invention relates to a dispenser device which may convert water into silver ionized water and may dispense the silver ionized water to necessary part of human body which may be easily contaminated by germs like as the affected part so that the necessary part of human body may be sterilized and the human body may be kept healthy. According to an aspect of the invention, there is provided a dispenser device 1 comprising a container 30, a silver foam block 10 which is contained in the container 30, and a pumping unit 20 which is combined at the upper portion of the container 30.
